Subject: RE: last week's GMAP Campaign at AK Steel - Red meeting

Thanks for a good meeting this afternoon. Please find our next steps below:

continue to process data	Marta
review lab canister data and perform any benzene calibration	AMAS
review nearby PM monitors/NATTS station data	Justin
review any available stack test data	Gina
give "coke ovens 101" presentation for Bill, ATSDR	Gina
consult with Hamilton County Health Department about any complaints	Michelle
identify other potential monitoring/technologies	AMAS/Gina
— investigate passive tubes for PAHs	
— consult with Cary/Tonawanda Coke	

Let me know if you have anything to add. We will schedule our next meeting when the canister data come back from the lab (~2 weeks out), but can reconvene if anything comes up in the interim. Reach out with any questions. Thanks!

Katie Siegel, Chief
Air Toxics and Assessment Branch
Air and Radiation Division
